Re: Somerset Owners Association (the "Association")

Dear Board Members:

This is a letter which is not subject to the attorney client privilege and which may be disseminated to members of the Association regarding certain matters in which we are presently representing the Association. The purpose of this letter is to apprise the members of such matters and/or for them to utilize such letter in complying with NRS 116.4109 if they are selling their homes.

Somerset Owners Association adv. Herbert and Linda James
Washoe Co. District Court Case No. CV16-00220

On or about February 12, 2016, the Jameses filed a complaint in the district court alleging that the Association did not have the right to enforce the CC&Rs against additional property the Jameses acquired from the former Northgate golf course adjacent to their original parcel, and which they subsequently incorporated into their original parcel. Among other things, the Jameses are seeking a declaration from the court that the Association cannot enforce its CC&Rs against the Jameses' entire property, only the original portion. The Association filed an answer and cross-complaint against the Jameses relating to their failure to comply with the Association's CC&Rs with respect to the Northgate land acquisition and incorporation of it into their original parcel.

On August 19, 2016, the Association amended its declaratory relief crossclaims to add thirteen homeowners, in addition to the Jameses, who purchased former Northgate golf course property and incorporated it into their original parcels. After the Association served each of the 13 new owners with copies of the counterclaims against them, counsel representing 12 of the new parties filed a motion to dismiss the claims, arguing the Association must proceed through the NRS Chapter 38 mediation requirements before it can file suit against the 13 owners. The Association unsuccessfully went through the mediation process with Mr. and Mrs. James. On November 18, 2016, the Association filed an opposition to the motion to dismiss, along with a motion asking that, if the court agrees with the new parties that the claims against them must first go to mediation, it stayed the James' claims until the mediation can be completed with the 13 new parties and the Association can then name any of the 13 owners in the James' suit if the mediation is not successful with such owners. Otherwise the Association might have to pursue the 13 owners (or some of them) in a different case than the James case, even though the issues are exactly the same.

The Association does not want to try the same issues in different district courts as the cases might provide different results, leaving the Association and the owners with inconsistent rulings. On December 1, 2016, the attorney for the 12 new parties filed their reply brief in support of their motion to dismiss the new claims. On December 7, 2016, the attorney for the Jameses filed their opposition to our motion to stay their portion of the case pending Ch. 38 mediation with the 13 new parties.

The Association prevailed as to the issue of stay, and agreed to dismissal followed by re-filing after mediation with the new parties. The mediation took place on June 16, 2017, with all parties except the Vasquez owners. The Association was able to reach settlements with all of the owners, except for the Jameses and Vasquez. The Association negotiated settlement agreements to reflect the terms agreed to with all defendants except the Jameses and Vasquez.

On August 30, 2017, the parties attended a Pre-Trial Conference, wherein the parties reported that six Settlement Agreements have been executed and four were expected to be executed within two weeks. The parties also moved to vacate the September 7, 2017 Status Check and the September 11, 2017 Trial date. The Judge denied as to the Status Check and granted vacating the trial date and lifted the stay. The parties were ordered to prepare a Stipulation and Order, which was filed on August 31, 2017.

On September 7, 2017, the parties attended the Status Hearing. The parties reported that seven of the twelve Settlement Agreements had been executed. The Court scheduled a Status Hearing for November 9, 2017. On September 11, 2017, an Order Lifting Stay and Vacating Trial Setting Date was filed.

The settlement checks have been sent to those owners whose lot expansion agreements have been recorded.

An additional day of mediation was held on October 10, 2017, to address the issues of Homeowner Vasquez. The mediation was successful and the parties concluded the final details of Homeowner Vasquez's Lot Expansion Agreement. As a result, in addition to Mr. and Mrs. James, the litigation will go forward with only two remaining property owners.

On December 27, 2017, the Association filed a First Amended Counterclaim (Third Party Complaint) against Homeowners Ditchvevs and McCullochs. The McCullochs have responded to the First Amended Counterclaim (Third Party Complaint) and filed a counterclaim. The Association responded to McCullochs' Counterclaim on March 15, 2018.

The Ditchvevs settled and a lot expansion agreement was recorded against their property. The Ditchvevs were dismissed from the action.

A status hearing took place on April 10, 2018. During the status check, Plaintiffs notified the Court they are ready to move the case forward. Counsel for Somerset indicated the need for additional discovery. The Court inquired as to whether the parties would participate in a Settlement Conference. Somerset counsel agreed, however, noted that this matter has been mediated twice previously. Plaintiffs' counsel indicated that settlement has not worked in the past as key legal issues exist. The Court entered a trial Scheduling Order and set a firm bench trial date for November 19, 2018.

Defendants James and McCulloch filed separate Motions for Summary Judgment. On August 24, 2018, a combined opposition was filed on behalf of the Association to both Motions for Summary Judgment. Mr. and Mrs. James filed their reply brief on September 14, 2018. On September 17, 2018, McCulloch's counsel filed a Request for Submission requesting the Court rule on their Motion for Summary Judgment. On September 18, 2018, counsel for the Jameses filed a Notice requesting oral argument on their Motion for Summary Judgment. On November 1, 2018, the Court denied a hearing and denied both motions.

Discovery closed on November 2, 2018, and the parties are preparing for trial. Trial subpoenas have been issued and served on witnesses, witness interviews are being scheduled and conducted, the parties have served their pre-trial disclosure statements, and the parties are working together to compile joint trial exhibits.

Additionally, on September 21, 2018, the Association requested to inspect the properties of both Defendants James and McCulloch. The inspection of both properties took place on October 18, 2018.

On November 2, 2018, a Request for a Mandatory Settlement Conference was filed on behalf of the Association. The Association believed that a bench officer may be able to facilitate a settlement of the matter. The Court declined to order a Mandatory Settlement Conference.

The Pretrial Conference was originally scheduled for November 8, 2018, however the Court vacated due to a scheduling conflict. The pretrial conference was rescheduled to November 7, 2018 and went forward on that date.

Critical witness Blake Smith notified counsel for the Association that he could not attend the trial in person due to an illness in the family. On November 8, 2018, Judge Walker notified the parties via email, that he would not continue the trial and directed the Association to file a motion requesting permission for the critical witness to appear for trial testimony telephonically. On November 8, 2018, on behalf of the Association, an Emergency Motion to Continue the November 19, Trial Date was filed due to the unavailability of a critical witness. Plaintiffs filed their opposition briefs, and the Association filed reply briefs. The Court denied the Motion.

The parties are meeting with the Court on November 14, 2018 to mark trial exhibits. Trial will commence on November 19, 2018.

Somerset Owners Association adv. Lawrence Adam Morrison
Washoe Co. District Court Case No. CV14-01081

On or about May 20, 2014, Lawrence Adam Morrison filed a complaint in the district court against Pulte Mortgage, LLC, Barbara Holmes and Bank of America, N.A. ("BANA") requesting quiet title on the property. Mr. Morrison requested the court to rule that he, as the present owner post-foreclosure, owns the property free and clear of the other parties' interests in the property, such as a bank lien due to the original owner's mortgage. On June 3, 2016, BANA filed their Amended Answer and Counterclaim against the Association and served the Counterclaim on July 25, 2016. BANA's Counterclaim argues that the foreclosure was improper and therefore they still have a security interest in the property, i.e. that their original mortgage lien was not wiped out by the foreclosure. On August 15, 2016, the Association filed their Answer with a Counterclaim against United Legal Services, Inc. ("ULS") and Atkinson Law Associates, Ltd. The Association alleged that they contracted with and relied upon ULS to perform the collections and/or foreclosure services correctly and in accordance with all legal requirements.

On August 22, 2016, the Association filed a Voluntary Dismissal of Atkinson Law Associates. On September 1, 2016, an Order extending discovery deadlines was executed and

Board of Directors
Somerset Owners Association
November 15, 2018
Page 5

filed. The original discovery cut off was January 5, 2017. The Association served their initial disclosures on September 21, 2016. Additionally, the Association will analyze documents disclosed by the other parties as they are produced. On March 3, 2017, due to a pending Supreme Court case, the court stayed the case and ordered the Plaintiff to maintain the status quo and payments.

A status conference was scheduled for August 18, 2017, however it did not go forward and we expect that the court will reschedule.

On September 15, 2017, counsel for Plaintiff filed a Motion to Withdraw due to non-payment of attorney's fees. On November 1, 2017, the Law Office of Mike Beede, PLLC substituted in as counsel for Plaintiff, Lawrence Adam Morrison.

On November 30, 2017, this matter was stayed by the Court. The parties are working on a proposed Stipulation and Order to Lift the Stay. The Order requests a new Scheduling Order be issued and discovery be reopened in addition to a discovery cut off of January 8, 2019.

It is anticipated that a motion seeking to lift the stay of the case will be filed in the near future.

Somerset Owners Association v. Somerset Development, et al.
Washoe County District Court Case No. CV17-02427

On December 29, 2017, on behalf of the Association, we filed a civil action against Somerset Development and other parties regarding defects found by American Geotechnical in the over 70,000 lineal feet of common area rockery walls. One day earlier we served the NRS Chapter 40 defect notices on the same entities. The developer has engaged counsel who has been in contact with the Association's counsel to discuss preliminary issues and scheduling. We will be in a position to provide more details in future updates as the litigation proceeds.

On April 11, 2018, a Doe Amendment to the Complaint was filed, substituting true named parties for fictitious names.

Inspections of the property took place on April 23, 2018. On April 27, 2018, Parsons Bros Rockeries California, Inc. was dismissed without prejudice and on May 10, 2018, Parsons Rocks! LLC was also dismissed without prejudice.

On May 3, 2018, a First Amended Complaint was filed on behalf of the Association. On May 10, 2018, a Stipulation and Order for Dismissal Without Prejudice was filed, dismissing Parsons Rocks! LLC.

Mediation between the principal litigants was held on June 22, 2018. Mediation proceedings are confidential, so the details of the session cannot be disclosed. However, although the case did not settle significant progress was made among and between respective counsel regarding certain procedural matters which will expedite determining the rights of the parties and the course of the case.

On July 31, 2018, as part of discovery, we began disclosing documents to all parties on behalf of the Association and will continue to disclose as required by the rules.

On August 13, 2018, Q&D Construction filed its Answer to the First Amended Complaint. On August 17, 2018, Somerset Development Company filed an Answer to the First Amended Complaint and Cross-Claim. On August 17, 2018, Somerset Development Company, Somerset LLC and Somerset Development Corporation ("Somerset Defendants") filed a Demand for Jury Trial. On August 21, 2018, Parsons Bros Rockeries filed its Answer to the First Amended Complaint. On August 29, 2018, the Somerset Defendants filed a Third-Party Complaint against Stantec Consulting, Inc., which filed its Answer on August 30, 2018.

On August 31, 2018, a Request for Exemption from Arbitration was filed due to the case involves an amount in excess of \$50,000 per plaintiff. The Request was unopposed and granted on September 11, 2018.

The Early Case Conference took place on September 11, 2018 and on October 17, 2018, the Joint Case Conference Report was filed. The discovery cut off December 31, 2019. A jury trial has been set for February 3, 2020.

Somerset Owners Association adv. James Haar - NRED case number 2018-784

On June 18, 2018, the Association received notification from the Nevada Real Estate Division ("NRED") that an owner, James Haar, had filed a complaint with the NRED alleging that the Association did not comply with the language of NRS 116.31088 in obtaining the ratification of the filing of the litigation relating to the construction defects in the rockery walls.

The Association submitted a Confidential response to NRED on July 30, 2018, and provided the requested copies of the governing documents of the Association and the documents relating to the actual vote to ratify the filing of the lawsuit.

Board of Directors
Somerset Owners Association
November 15, 2018
Page 7

On November 5, 2018, NRED provided its decision stating that no good cause to pursue a complaint before the Commission for Common-Interest Communities and Condominium hotels exists at this time.

Somerset Owners Association adv. Todd and Rachelle Shaw - NRED case number 2018-1904

On or about July 19, 2018, owners Todd and Rachelle Shaw filed a complaint against the Association with the Nevada Real Estate Division seeking mediation. The complaint alleges that the Association improperly denied the Shaws' application for architectural changes to their home consisting of certain exterior lights and paint, and further, alleging that the Association improperly fined them for installing the proposed changes without having first obtained association approval. The Association tendered the complaint to its insurance company for defense and coverage. The insurance company assigned this matter to the law firm of Lewis Brisbois. Lewis Brisbois filed a response on behalf of the Association.

The parties participated in mediation regarding this matter on September 25, 2018; the mediation was unsuccessful. The parties executed an agreement stating the Association will take no enforcement action to collect fines owed as a result of the work performed at the Shaw's home for three (3) months. While no matter is pending in court relating to this case, both parties have fulfilled their duties to participate in mediation before filing a civil action on the matter. Therefore, either party could file suit now to enforce their respective rights.

Except as stated herein, the undersigned knows of no other pending litigation of the Association, as of the date of the writing of this letter. You should contact the Community Manager to determine whether or not the Association is involved in any other litigation matters.

Very truly yours,

WOLF, RIFKIN, SHAPIRO, SCHULMAN & RABKIN, LLP

MICHAEL T. SCHULMAN
